

PELLET RANGE

TSS BEEF HI PRO PELLETS

Tas Stockfeed's grain free beef pellets are ideal for beef producers wanting to grow and finish high quality animals. The composition of these pellets ensures that grain free status can be complied with even when feed supplements are used.

TSS Beef Hi Pro pellets are also enhanced with a cattle-specific mineral and vitamin inclusion.

TSS SHEEP HI PRO PELLETS

Tas Stockfeed's sheep pellets are a cost-effective option to ensure that growth and health of sheep and lambs can be maintained in any season.

TSS Sheep Hi Pro pellets are also enhanced with a sheep-specific mineral and vitamin inclusion.

TSS UNIVERSAL PELLETS

TSS Universal Pellets are an economical option for supplementary feeding of a large range of animals. The formulation of these pellets complies with grain free status requirements.
